

# Nonviolent Crisis Intervention® 2<sup>nd</sup> Edition Training

## Why should I use this training option?

**Nonviolent Crisis Intervention 2<sup>nd</sup> Edition Training** focuses on verbal de-escalation and early intervention, giving staff an effective framework for decision making and problem solving. By teaching safe disengagements and physical interventions that can be implemented with the least use of force, this program provides the safest environment for all parties involved.

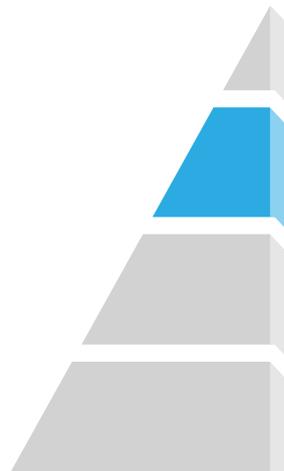

## Features & Benefits

- Provides a broad range of tools to help participants manage their own emotional responses and identify escalating behaviors in others.
- Teaches effective approaches to keep the “emotional brain” from taking over in stressful situations.
- Post-Crisis strategies assist staff teams in recognizing opportunities to learn prevention strategies in the aftermath of a crisis.

## Whatever your organization needs, we have the right solutions.

Every organization is different, with its own unique risks, responsibilities, and needs. That's why we custom-curate a training solution for your requirements with our violence prevention experts. **Nonviolent Crisis Intervention 2<sup>nd</sup> Edition Training** provides staff with decision-making tools to understand how to intervene in escalating situations, and when to use physical interventions like holding skills, if necessary.
